Sir:

The revised claims have been rewritten after the office visit of September 24, 2007 with Supervisor John Hayes and Examiner Igor Borissov. Applicant has amended the Claims section beginning on page 72 and ending on page 85. Remarks begin on page 86 and end on page 87. The amended claims clearly distinguish the energy management of the multifunction data port from devices used to record signals from utility meters. I pray that all of these claims are now in a condition for allowance.

Thank you,

Charles E. Roos
